

Multi-Currency Accounts

Managing foreign currencies with ease

-  **Open one account to manage up to 13 currencies.**
-  **Efficient and cost-effective solution to manage transactions in different currencies.**
-  **An account that allows you to avoid currency conversions when transacting.**

At a glance

- Maintain multiple currencies in separate wallets in the same account.
- Full transactional activities can be conducted in the required currency.

Designed for

- Broad range of companies and non-bank financial institutions with a need for periodic payments and receipts in multiple currencies.

How it works

Your benefits

- **Ease of opening and managing account.**
- **Save administration cost and burden with fewer accounts to be managed.**
- **Convenience and ease of managing multiple currencies through a single account within the same portal, DBS IDEAL.**

Our solutions

- Each currency wallet automatically created by:
 - First incoming transaction
 - Overdraft set-up
 - Choice of currency to debit account charges (fall-below and account service fees)
- Additional currency wallets* do not require further documentation and can be activated remotely and immediately.
- Real-time visibility of currency wallets' available balances and transaction information via DBS IDEAL, corporate internet banking platform.

* With the exception of CNH which requires RMB Declaration Form to be signed.

⦿ Your benefits

- Reduce unnecessary currency conversion costs with flexibility to manage currency conversions at your own schedule.
- Save foreign exchange conversion costs from offsetting flows in same currency.

- Flexibility in choice of operating currency to suit your needs.

⦿ Our solutions

- Make foreign currency payment from respective currency wallet subject to available funds.
- Funds can be transferred between wallets at competitive exchange rates.

- Choose main operating currency when opening account.

⦿ Multi-Currency Account

**Choice of primary operating currency for Multi-Currency Account
SGD is a default currency wallet.**

What makes us different

Why we are different

- Automatic linkage of currency wallets in DBS IDEAL, corporate internet banking, for transaction initiation and reporting.

- Fully compatible with existing DBS Virtual Account solutions.

How it helps you

- Ease of making electronic foreign currency payments with real-time visibility of currency wallets' available balances and comprehensive transaction information.

- A simplified way to manage multiple currencies and integrate with other DBS cash management solutions.
