

Enriched Consolidation Receivables (ENCORE)

Smarter receivables reconciliation made seamless

-  **Reconcile your incoming payments from multiple channels.**
-  **Capture relevant invoice details for greater ease and automation in reconciliation.**
-  **Generate single enriched file in a format compatible with your ERP.**

At a glance

- Consolidate incoming payments across multiple collection channels.
- Extract useful invoice details from payment instructions and payment advices to enrich incoming payments.
- Transform data into a standardised database for consistency.
- Customise and generate an enriched file for upload into your ERP for auto reconciliation.

Designed for

- Payments received across multiple modes e.g. inward electronic payments, GIRO collections, credit card collections and cheques.
- High volume B2B electronic incoming payments with separate payment advices provided.
- Complex incoming payments e.g. single payment for multiple invoices.

How it works

Your benefits

- **Reduce time and resources to match information across fragmented sources to identify payers and purpose of payment.**

Our solutions

- Consolidation of data feeds across:
 - Account statements or MT940/942
 - Incoming payment instructions
 - Reports (e.g. Bill Payment and Merchant Advice reports)
 - Payment advices

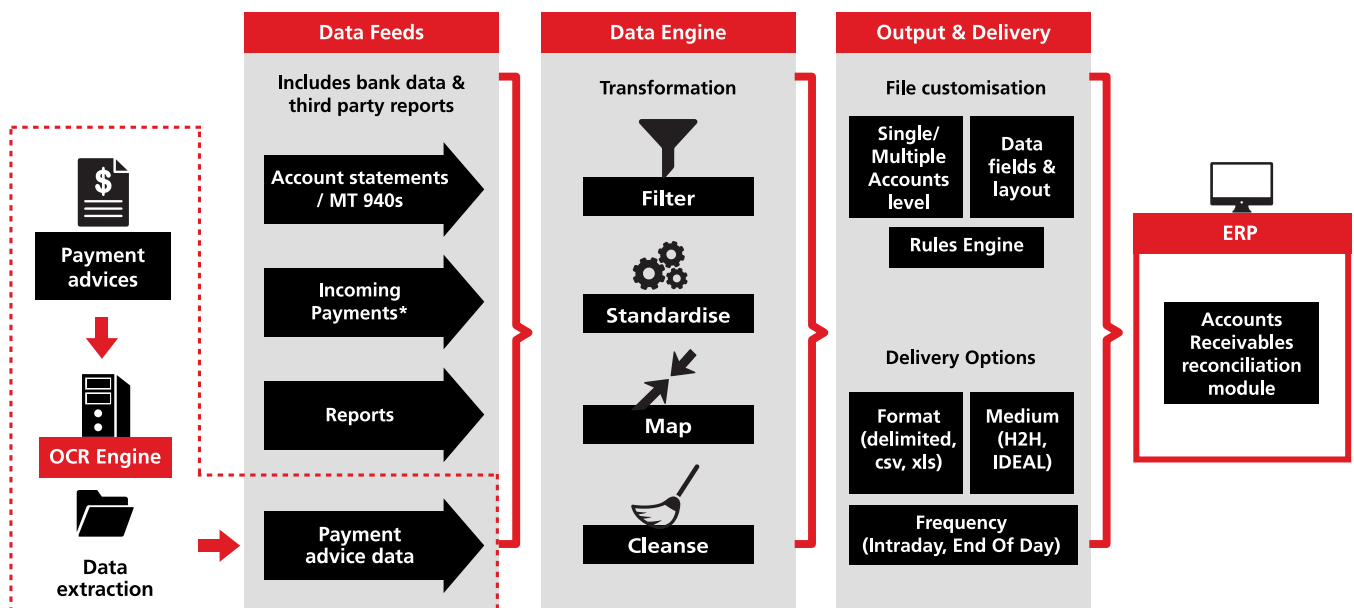

Your benefits

- Eliminate manual effort and errors in extracting data from payment advices.
 - Re-deploy your resources to more value-added activities.
-
- Increase automation for accounts receivables reconciliation.
 - Results in shorter Day Sales Outstanding and better working capital management.

Our solutions

- Intelligent Optical Character Recognition (OCR) - based data technology to automate the capture of invoice details from payment advices.
 - Enrichment of incoming payments with extracted invoice details.
-
- Application of data parsing and pattern recognition to sharpen output provided.
 - Single enriched file can be generated in a format compatible with your ERP for ease of upload and processing.

How ENCORE works?

*These are:

1. Account Transfers
2. Incoming FAST/GIRO
3. FAST/GIRO Collections
4. MEPS
5. Telegraphic Transfers
6. Cash
7. Cheques
8. Credit Card collections
9. Bill Payments

What makes us different

Why we are different

- **ENCORE offers a flexible solution.**

- **Our solution leverages machine-learning and advanced OCR technology to extract relevant information from incoming payments, applies parsing and cleansing logic to transform data for meaningful use.**

How it helps you

- Customisable accounts receivables reconciliation solution configured to your unique business needs.
- Ensure greater accuracy in the information captured across all bank data feeds and payment advices.
