  - (ii) Decrease the **sum insured** as long as the **policy** is in force. If **we** approve the request, **we** will revise the **premium** based on the new **sum insured** which will apply from the next **premium due date** (if **premium** is still payable).

This option is only available after the **policy** is issued and **you** have written to **us** for this option to be exercised.
- (c) If **you** do not specifically write to **us** to exercise either option 27 (b)(ii) or 27 (b)(iii) above after **policy** issuance, then option under 27 (b)(i) will **continue to apply**.
- (d) **You** must ensure that **premiums** are paid by the end of the **grace period**, failing which an **automatic premium loan** may be applied.
- (e) In the event of a revision in the annual **premium** due to a revision in the **sum insured** in accordance with clause 8 (b)(i) or 8 (b)(ii), the **guaranteed cash benefit** shall be revised based on the revised annual **premium**.

**28. Death benefit**

- (a) If the **life insured** dies before the **maturity date** and if the **policy** has not been converted into an **RPUI**, **we** will, as long as the **policy** is still in force, pay the following less any **policy debt**:
- (i) The higher of
    - a. 105% of the **total premiums paid to date**, less any **guaranteed cash benefit**;  
or
    - b. the **guaranteed surrender value**; and
  - (ii) the **accumulated reversionary bonus** (if any); and
  - (iii) the **claim bonus** (if any); and
  - (iv) the accumulated **guaranteed cash benefit** with non-guaranteed interest (if any).
- (b) If the **life insured** dies before the **maturity date** and the **policy** has been converted into **RPUI**, **we** will pay the following less any **policy debt**:  
The higher of
- (i) 105% of the **net surrender value** of the **policy** immediately before the **policy** is converted into **RPUI**; or
  - (ii) **guaranteed surrender value**.
- (c) If there is a reduction in the **sum insured** as described in clauses 8 (b)(ii) and (d), the **total premiums paid to date** for the calculation of **death benefit** in clause 28 (a)(i) is calculated based on the number of years from the **policy effective date** till the claim event (rounded down) multiplied by the reduced **premium** shown on the **endorsement**.
- (d) Upon the payment of the **death benefit**, this **policy** will end.

**29. Terminal illness benefit (TI benefit)**

- (a) **TI** means an illness which, in the opinion of a **medical examiner** and with the agreement of **our** appointed **medical examiner**, is likely to lead to death within 12 months from the date of **diagnosis**.
- (b) If the **life insured** is **diagnosed** with **TI** while this **policy** is in force, **we** will pay the **TI benefit** as an acceleration of the **death benefit**. However, this will not be more than the **TI/Critical Illness (CI) limit**. The most **we** will pay for this **policy** and all other policies **we** have issued (or policies which **we** are otherwise legally responsible for) covering the same life providing for any **TI benefits** or any **CI benefits** is S\$2,000,000 (the **TI/CI limit**). Of this amount, the **TI benefits** cannot be more than S\$1,000,000. When **we** make a payment for **TI**, **we** will reduce the **TI/CI limit** by the amount **we** have paid.
- (c) If **we** can accelerate the **death benefit** in full for **TI** claim, the amount payable for **TI** claim by **us** will be the **death benefit** in full. Upon this payment, this **policy** will end. If **we** cannot pay the **death benefit** in full upon **TI** due to the **TI/CI limit**, **we** will pay the **death benefit** up to that limit. This is known as the **death benefit** being partly accelerated. The **policy** will not terminate on **TI** if **death benefit** is partly accelerated. The **sum insured** and hence, the **death benefit** will be reduced proportionately after the payment of the **TI benefit**, if **death benefit** is only partly accelerated.
- (d) When a **TI** is **diagnosed**, **you** must continue to pay **premiums** until **we** have approved the **TI** claim.
- (e) **We** will not pay any **TI benefit** if the **TI** is caused by the presence of **human immunodeficiency virus (HIV)** infection.
- (f) **TI benefit** will end:
  - (i) after **we** have paid a claim for **TI benefit** on the **life insured**;
  - (ii) when **we** have paid the **TI/CI limit**; or
  - (iii) when this **policy** ends,whichever happens first.

**30. Total and permanent disability benefit (TPD benefit)**

- (a) If the **life insured** is **diagnosed** with **TPD** on or before the **TPD expiry date** and this **policy** is still in force and has not been converted into **RPUI**, **we** will pay the **TPD benefit** as an acceleration of the **death benefit**. Upon this payment, this **policy** will end. If **we** cannot pay the **death benefit** in full upon **TPD** due to the **TPD limit**, **we** will pay the **death benefit** up to that limit. This is known as the **death benefit** being partly accelerated. The **policy** will not terminate on **TPD** if **death benefit** is partly accelerated. The **sum insured** and hence, the **death benefit** will be reduced proportionately after the payment of the **TPD benefit**, if **death benefit** is only partly accelerated.
- (b) The most **we** will pay for this **policy** and all other policies **we** have issued covering the same **life insured** for any **TPD** coverage is S\$5,000,000 (**TPD limit**). When **we** make payment for **TPD benefit**, **we** will reduce the **TPD limit** by the amount **we** have paid.
- (c) If the **life insured** is **diagnosed** with a **TPD**, **you** must continue to pay the **premiums** until **we** have approved the claim.
- (d) **TPD benefit** will end:
  - (i) on the **TPD expiry date**;
  - (ii) after **we** have paid a claim for **TPD benefit** on the **life insured**;
  - (iii) when **we** have paid the **TPD limit**;
  - (iv) when the **policy** is converted into an **RPUI**; or
  - (v) when this **policy** ends,whichever happens first.
