that are customised
to my needs

We are
tailoring our solutions
to help run your
business more efficiently

CUSTOMISED BANKING SOLUTIONS that give you more time for your business

In today's world, managing your business can be difficult. You need a solution that can help you run your business more conveniently, with ease and efficiency.

Introducing DBS IDEAL™ Connect, a customisable banking solution which gives you full access to the most comprehensive range of Cash Management products in the market. These products are highly suited to your business needs and will allow you to grow your company from strength to strength.

IDEAL™ Connect simplifies your day-to-day business processes, such as making payments and receiving reports faster and easier. This way, you can run your business hassle-free.

■ Simple & easy to implement

We give you the freedom to choose the most appropriate software for integration without being tied to proprietary terms or software. The on-boarding process is standardised and simple.

■ Stringent security and controls

IDEAL™ Connect deploys highly sophisticated encryption technology so you can be assured of data confidentiality and integrity.

■ Supports high volumes and large sized files

Our state of the art technology is designed to support large volumes of transactions and large sized files with ease.

■ Highly customised business pre-processing/ routing rules

Our straight through processing with no manual intervention helps improve operational efficiencies and reduces your operational cost.

■ Real-time alerts

IDEAL™ Connect will send you real-time alerts on file transfer status.

■ More on how IDEAL™ Connect works

With DBS Gateway you can enjoy end-to-end transfer solutions 24/7 for payments, collections, remittances, etc.

Here's a list of transactions you can carry out with ease on IDEAL™ Connect :
