For the avoidance of doubt, the following terms used in this agreement shall have the meanings as defined in the Code of Conduct for Retail Electricity Licensees ("**Retailer's Code**"), as set out below:

1. 'Pricing and Payment Provisions' means the terms and conditions in a contract which address or provide for the:
 - a. pricing;
 - b. security deposit; and
 - c. applicable charges, including early termination charges, late payment fees and treatment for over-charging or undercharging by the Retailer.

2. 'Default Supply Arrangement' means the supply of electricity from the Market Support Services Licensee ("**MSSL**"):
 - a. In the case of a Consumer who is eligible to apply to cease his classification as Contestable Consumer under Regulation 7 of the Electricity (Contestable Consumer) Regulations, at such tariff as may be set from time to time by the MSSL for Non-Contestable Consumers; and
 - b. In the case of a Consumer who does not fall within subsection (a) above, at the prevailing market prices for the purchase of electricity from any wholesale electricity market through the MSSL.

1. Retail of Electricity and Undertakings:

- 1.1 The Contract Duration shall commence on the Start Date and expire on the Expiry Date. The Start Date shall not be earlier than the date on which the Consumer's electricity account is successfully transferred to the Retailer from the MSSL or the Consumer's previous retailer (as the case may be).

- 1.2 Where the Consumer's electricity account is transferred to the Retailer from the Consumer's previous retailer, the Consumer shall be wholly liable for any early termination charges, late payment fees, administrative charges and/or any other charges incurred under the Consumer's agreement with the Consumer's previous retailer.

- 1.3 During the Contract Duration, the Consumer:
 - 1.2.1 agrees to purchase and pay the Retailer for all electricity consumed at the Premises;
 - 1.2.2 agrees to maintain its status as a contestable consumer under the Electricity (Contestable Consumers) Regulations and shall not take steps to change such status unless as required under the Relevant Legislation; and
 - 1.2.3 shall arrange for the Premises to be connected to the electricity transmission and distribution system of Singapore and shall obtain such services as may be required to enable the transmission of electricity to the Premises.

2. Metering:

- 2.1 The amount of electricity consumed at the Premises shall be measured by the electricity meter(s) installed at the Premises. These meter(s) are the property of the Transmission Licensee (as defined in the Electricity Act (Cap 89A)) and the Consumer shall not tamper or interfere with such meter(s) in any way. The Consumer shall provide such person with all assistance and cooperation in connection with any inspection, reading, servicing, or replacement of any such meters.

- 2.2 The Retailer reserves the right to estimate the amount of electricity consumed based on historical meter readings provided by MSSL and make appropriate adjustment in the event actual metering data is not available for whatever reason and the Retailer's estimation and/or adjustment (as the case may be) shall be final and binding on the Consumer, in the absence of manifest error.

- 2.3 The Consumer acknowledges and agrees that the Transmission Licensee and the MSSL, and not the Retailer, is responsible for meter installation and removal, meter reading and meter data management in accordance with the Metering Code, the Market Support Services Code, the Electricity Act (Cap 89A) and any other Relevant Legislation.

 - 2.4.1 Smart meter(s) installation is optional unless the Consumer signs up for an electricity price plan that requires one. The Consumer must request for an installation of new smart meter(s) to the Retailer and the Retailer shall forward such a Consumer's request to the MSSL. Pursuant to Condition 2.3, the MSSL is responsible for smart meter(s) installation and old meter(s) removal.

The Retailer is not liable for any delay, damage, defect or fault arising in connection with or as a result of the smart meter(s) installation and old meter(s) removal. The Consumer shall pay for any cost incurred for the installation of the new smart meter(s).

- 2.4.2 The Retailer shall use the Static Residential Load Profile (SRLP) adjusted for consumption from MSSL based on the old meter(s) until the date the MSSL notifies the Retailer that a smart meter(s) installation has been successfully completed and switched on.
- 2.4.3 For the avoidance of doubt, following a smart meter(s) installation, all references to "electricity meter(s)" and "meter(s)" shall also mean smart meter(s).

3. Security Deposit, Charges and Payments:

- 3.1 Upon the commencement or renewal of this Agreement, the Consumer shall if so required by the Retailer in writing, forthwith pay the Retailer the security deposit equivalent to:
 - (i) up to two (2) times of the Consumer's average monthly electricity charges invoiced to that Consumer calculated over a continuous period of 12 months ending with the month immediately preceding the month in which the security deposit will be collected from the Consumer; or
 - (ii) where the Consumer has less than 12 continuous months of invoices issued immediately preceding the month in which the security deposit will be collected from the Consumer, up to two (2) times of the Consumer's average monthly electricity charges for that period; or
 - (iii) In the case none of Conditions 3.1(i) or (ii) applies, up to two (2) times of the monthly electricity charges determined based on the national average monthly consumption of the specific dwelling type published by the MSSL and the prevailing rate offered by Retailer to the Consumer; or

Bungalow	S\$220

Payment of such security deposit shall constitute security for the due and proper performance by the Consumer of its representations, warranties, duties, undertakings and obligations and any and all sums due to the Retailer (whether as damages or otherwise) in connection with this Agreement.

- 3.2 The Retailer may utilise at any time the whole or any part of the security deposit in settlement of any sum due from the Consumer to the Retailer. Any remaining security deposit in the hands of the Retailer shall be refunded to the Consumer, free of interest, within 1 month from the Consumer's payment of the final invoice issued by the Retailer following the expiry or termination of the Agreement.
- 3.3 During the Contract Duration, the Retailer shall periodically invoice the Consumer, and the Consumer shall pay the aggregate of the following:
 - 3.3.1 the electricity rate (not inclusive of goods and services tax) as stated on the Fact Sheet multiplied by the quantity of electricity supplied to the Consumer without any adjustment for transmission losses provided by MSSL);

 - 3.3.3 any new applicable charge approved by the Authority under Clause 3.9.2 of the Retailer's Code; and

- 3.3.4 any revisions in the Pricing and Payment Provisions required to comply with the relevant legislation or the Retailer's Code or as mutually agreed between the Consumer and the Retailer; and
- 3.3.5 the prevailing goods and services tax at the applicable rate on the total of the amounts stated in Conditions 3.3.1 to 3.3.4.

Any Pricing and Payment Provision and/or the terms of this Agreement may from time to time be amended, varied, supplemented by the Retailer taking into account the enactment changes to or in the interpretation or application of any new or existing laws, codes or regulations applicable to the Singapore electricity industry, or any direction from the relevant authorities in respect of the retail of electricity under this Agreement in each case where the amendment/adjustment is required for compliance with Relevant Legislation or the Retailer's Code.

For avoidance of doubt, for all non-standard price plans, the Retailer reserves the right to pass on to the Consumer (at cost) a fair proportion of any incremental adjustment or variation of the relevant Additional Fees or Charges as may be referable to the retail of electricity by the Retailer to the Consumer under this Agreement.

The Retailer shall notify the Consumer of any amendment, variation, supplementation or adjustment at least ten (10) business days before such changes take effect.

3.4 Undercharging

- 3.4.1 If the Retailer undercharges the Consumer, the Retailer may recover the undercharged amount from the Consumer. The undercharged amount may be billed in any subsequent invoice issued by the Retailer or a separate invoice in respect of the undercharged amount, at the discretion of the Retailer.
- 3.4.2 If the Retailer recovers an undercharged amount from Consumer, the Retailer shall not charge interest on the undercharged amount.

- 3.5.2 If Consumer has stopped buying electricity from the Retailer and Consumer has already made full and final settlement of all invoices for electricity consumed under the Agreement, the Retailer shall use its best endeavours to pay the overcharged amount to the Consumer within twenty (20) business days after the Retailer is aware of any such overcharging.

3.6 Where the Consumer is eligible to receive, during the Contract Duration, any Utilities-Save Rebate (the "**U-Save Rebate**") which is part of the GST Voucher scheme introduced by the Singapore government for eligible residential consumers to offset their utilities bills, the Retailer shall use the applicable amount of the U-Save Rebate credited to the utilities account of Consumer to off-set against the amounts due under the Consumer's invoice(s) in accordance with the process or requirements prescribed by the Singapore government.

3.7 If the Consumer fails to make payment to the Retailer of any amount payable by the Consumer on its due date for payment, the Consumer shall pay the Retailer interest on the amount outstanding at the monthly rate stated on the Fact Sheet (to be computed on a monthly rest basis).

3.8 The Consumer acknowledges that the Retailer may appoint a billing agent to invoice and collect from the Consumer the charges and payments due under this Agreement and perform the obligations under the Pricing and Payment Provisions. Notwithstanding the foregoing, the Retailer reserves all rights to invoice and/or collect from the Consumer any charge and payment due under this Agreement not invoiced and/or collected by the billing agent. For the purpose of the Pricing and Payment Provisions, "**the Retailer**" shall mean Seraya Energy Pte. Ltd. or the billing agent, as the case may be.

3.9 Where the Electricity Retail Agreement specifies that payment shall be made by charging to the Consumer's account with American Express, MasterCard or VISA, the following provisions shall apply:

- 3.9.1 Execution by the Consumer of the Electricity Retail Agreement shall constitute the Consumer's written authorisation to the Retailer from time to time submitting to American Express International Inc., MasterCard International Incorporated or VISA International Service Association (the relevant entity as the case may be referred to as "**the Association**") requests

for the payment of any and all sums payable by the Consumer to the Retailer (howsoever arising) and for this purpose the Retailer may charge or debit or require to be charged or debited any such sum to the Consumer's account with the Association specified in the Electricity Retail Agreement or any other account as may be notified by the Consumer and/or the Association.

- 3.9.2 The Consumer shall not be obliged to make payment to the Retailer in respect of any invoice rendered by the Retailer provided that such payment is received by the Retailer from the Association within the Payment Term (or such additional period as the Retailer may allow the Association).
 - 3.9.3 The Consumer shall duly pay the Association any and all sums so charged or debited or paid by the Association to the Retailer on behalf of the Consumer in full without any set-off, counterclaim or deduction on account of any dispute or claim which the Consumer may have against the Retailer in relation to or arising from this Agreement, it being the express intention of the parties that the Consumer shall bring any such dispute or claim directly against the Retailer.
 - 3.9.4 The authorisation referred to in Condition 3.9.1 shall remain in force throughout and shall not be terminated before the expiry of the Contract Duration.
- 3.10 Except where the MSSL was engaged to invoice the Consumer on behalf of the Retailer, upon expiry or termination of the Agreement (where there is no renewal), the Retailer shall issue a final invoice within twelve (12) business days from the date it receives the relevant invoice from the MSSL, upon expiration or termination of the Agreement, or if unable to do so, to notify the Consumer of the expected date of issuance of such final invoice within the same period.
- 3.11 The Retailer shall be entitled to adjust, vary or correct any invoice rendered on the Consumer to take into account any revised assessment or estimation of the meter reading(s) referred to in Condition 2.2 and/or any undercharging or overcharging referred to in Conditions 3.4 and 3.5, respectively.

4. Limitation of Liability:

- 4.1 The Consumer acknowledges and agrees that the Retailer does not generate, transmit, distribute or control the supply of electricity and excludes any liability (whether direct, indirect or consequential) with respect to any direct, indirect or consequential loss, damage, cost or expense which the Consumer may incur or suffer in connection with the supply of any electricity to the Premises or any failure or interruption in such supply, howsoever caused.

Nothing in this Condition shall operate to exclude or limit any liability for any death or personal injury resulting from the negligence of the Retailer.

 - 5.1.1 the Consumer fails to pay any amount due and payable or fails to provide security deposit to the Retailer;

6. Contract Expiry / Renewal:

- 6.1 The Agreement shall be automatically renewed on the date immediately following the Expiry Date on the same Contract Duration and the applicable price plan for any such renewal term ("**Renewal Term**") shall be the same. Except for the electricity rate under the price plan and any one-off pricing rebate, discount or incentive, the Pricing and Payment Provisions in effect prior to the renewal shall continue to apply with no change in respect of the Renewal Term. Upon automatic renewal, the Consumer shall have the right to, within the first thirty (30) days from the start of the renewed contract term, terminate the renewed contract by giving the Retailer at least thirty (30) days' written notice without being charged the applicable Early Termination Fee.
