

A vibrant tropical garden scene featuring a waterfall cascading over large, dark rocks. The garden is filled with various types of palm trees and other lush green plants. In the background, a modern, multi-story building with large windows is visible through the foliage. The sky is bright blue with some light clouds. The overall atmosphere is serene and natural.

Living Well with Damai Spa

Experience Hyatt's holistic approach to well-being with a pampering 90-minute body or facial treatment at Damai Spa. Nestled within lush greenery away from the hustle and bustle of Scotts Road, Damai Spa brings together the cultural healing philosophies of Singapore's multicultural society for a modern spa experience.

Each body treatment begins with a foot soak, and a sensory test to assess the Damai Signature Blend that the body needs the most. Created by Damai Spa's therapist, guests can choose from four Damai Signature Blends – Calm, Revive, Healing, and Renew – to go with a Swedish, Aromatherapy or Balinese massage.

Extend the experience with a two-night option

Priced at SGD 1950++ for a one-night stay, guests can also opt to extend their Living Grand Staycation for two nights at SGD 2450++. Prices listed are for two guests, and the offer is valid until 31 December 2021 for Singapore residents only.
